Importance: High

Hi Kelly and Derek –

I have added some comments just now. The text generally looked good to me but

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I am assuming this text piece goes into all the crop-specific memos, which is why I thought I should raise these issues here.

Thanks for considering this – I hope its of some help – Nikhil

PS: sorry for a long and rambling message!

Team:

Thanks, Kelly and Derek, for composing the mitigation section! I finished my review, too.

I was wondering if each of the crop memos should have the same brief paragraph in the summary that discusses what the agency is proposing as mitigation. I have taken the liberty of drafting a summary that encapsulates what Kelly and Derek have written (italicized below). I am not attached to any of the language here. Please edit and you don't have to use it, obviously.

Team,

Here is what Derek and I worked on today...it is longer than was previously shared. One of the memos had a similar version of this go thru BC review, so we tweaked and updated something BC reviewed to hopefully minimize revisions. Please look at this by noon today and reply all when done so we can finalize this by 1 and you can also get your memos finalized.

Please let us know if you have any questions.

Hi everyone,

Our huddle notes are attached. Please note that I did not hear/dates were not discussed for the repository of lettuce and spinach and garlic and onions references.

Rebecca

Subject: Methomyl team huddle

When: Wednesday, June 24, 2020 1:00 PM-1:30 PM (UTC-05:00) Eastern Time (US & Canada).

Where: DCRoomPYS9361/Potomac-Yard-One

Needed to change this to a TEAMS meeting because I have another huddle that is using my skype number --- the line will have 2 calls at the same time, *I think* – so we will use Teams to avoid that conflict

I got a meeting scheduled over the methomyl mtg that I have to attend, so I had to reschedule. I think this was the earliest time that most (although not all) were available.

We will send out notes after for everyone.

Thanks

Kelly

I didn't book huddles far enough out and am adding a few more meetings to get this thing finished up. Remember to be archiving references when you can.

Kelly

Planner/E-Flow Board: BEAD ELMS Planner/E-flow board

We will do mini-huddles for each memo. There are 8 memos and we will dedicate 4 mins per memo. **So come prepared with your dates to update cards – please meet with your team prior to the meeting to keep this running smoothly.**

The first 2-3 minutes will be dedicated to selecting roles (facilitator, attendance/time keeper, and scribe).

The next 32 minutes will be dedicated to each crop memo. This will be discussed in alphabetical order (below).

The remaining 10+ minutes will be used to discuss overarching methomyl issues. For each memo will address items 2-5 on the agenda below. Again, please meet with your team prior to the meeting.

Order of memo discussion

1. Celery
2. Fresh Beans
3. Garlic/Onion
4. Lettuce/Spinach
5. Overview
6. Pepper
7. Sweet corn
8. Tomato

Agenda

1. Take attendance
2. Review/confirm timeline (e.g. confirm quarter, signature due dates, and interim deliverables)
3. Discuss any Issues/Problems
4. Mark tick sheet or create action item?
5. Update/Create Proxy Card Milestones with Dates
6. Celebrations
